

Increase preventive care utilization with a kit shipped to your employee's home

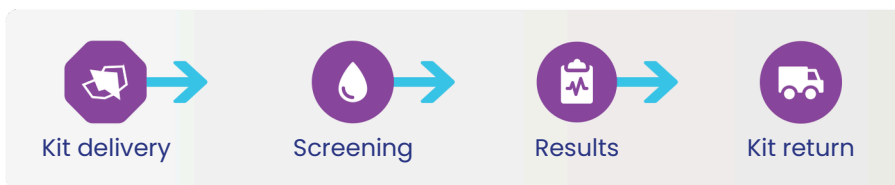

Don't let logistics keep employees from skipping screenings.

Reperio offers a self-service solution for comprehensive biometric health screenings with **results ready in under 30 minutes**. The at-home, integrated Reperio kit measures:

- Blood pressure
- Heart rate
- Body mass index
- Relative fat mass
- Fasting or non-fasting glucose
- Total cholesterol
- HDL cholesterol
- LDL cholesterol
- Triglycerides

How Reperio works.

REPERIO FOR EMPLOYEES

Understand potential health risks,
with immediate results to inform better health choices

Complete Reperio from the comfort of home,
no appointments to keep

Share results right from the app
with providers for any next steps in care

REPERIO FOR PEOPLE LEADERS

Reduce healthcare costs and avoid risks
before they develop into expensive, chronic concerns

Create a meaningful wellness program,
use screenings to curate applicable interventions

Offer an innovative, competitively priced service
that engages your workforce in their health

Partners in Digital Health and Primary Care

Lack of preventive care is **costly** — and sometimes **catastrophic**.

77% of employees report that they put off preventive care screenings, citing logistics as why they do so. Reperio removes these roadblocks so employees learn their **key health indicators in support of detection and early intervention** – all from home with instant results.
